DATA SHEET Issue 1

The **AYRLITE Panel Slotter PS240-1** has been specifically designed with a nylon base to provide a uniform slot along the honeycomb edges, whilst protecting the decorative surfaces of the Ayrlite 20mm panel range. The slot is required to accept the extrusion tongue when using the following 20mm Ayrlite Extrusions; ACP2853 20mm Corner Post, ACP2855 End Cap, ACP2856 Joiner, ACP81247 T Section and ACP80356 Internal Joiner.

**AYRLITE** honeycomb panels are assembled with Ayrlite Extrusions using polyurethane adhesive (eg Sikaflex 291).

### Safety

As with cutting operations on most materials, avoid inhalation and eye contact with machining dust. Wear protective equipment such as hearing protection and safety glasses during any cutting operations. Use machine guards. Wear gloves to avoid cuts. Wash hands before eating, drinking or smoking and after finishing work.

A DVD is available showing assembly techniques, contact Ayres Composite Panels for a copy.
